## Post Operative Instructions

### SKIN GRAFT CARE

1. **Grafted Area** (*from where the lesion has been removed*)
  - KEEP DRY
  - Leave dressing(s) dry and intact until your review appointment. However, if the outer dressing (gauze and tape) falls off, the remainder dressing underneath (foam rubber) should REMAIN  
DO NOT ATTEMPT TO REMOVE THIS DRESSING
  
2. **Donor Area** (*usually in front or behind the ear*)
  - Leave dressing(s) dry and intact for 2 – 3 days
  - If you have excessive bleeding, apply DIRECT PRESSURE FOR 10 MINUTES. If necessary, the dressing(s) may be replaced with a similar type. If bleeding persists, ring our rooms or your GP
  - If desired, MICROPORE TAPE may be applied directly over the sutures
  - DO NOT shave or apply make-up over the sutures
  - If there is excessive redness, irritation, or any signs of possible infection ring our rooms or your GP
  - If required, pain medication may be taken (not Aspirin)
  - If your wound is on your arm or leg, keep that limb elevated for the first 2 days, and whenever possible until the wound is completely healed
